

Loop Indicator

STI-LI1 is programmable Loop Indicator with graphic display, purposed for transmitters signal visualization.

Configuration:

- from computer
- manual

Adjustments:

- indication
 - numerical and/or bargraph
- formulas package for signal and reading scaling
- temperature
- level
- flow and integration
- pressure
- others

Technical Data:

- input
 - 4 – 20 mA – two wire scheme
- display
 - 122 x 32 dot. matrix
- power supply
 - from input signal
- work temperature
 - from -10 to +70°C
- enclosure
 - Rittal 125x80x57 IP 66
 - [EEx] ia IIC
